Kalinga University, established in 2013, stands out as one of the leading private universities strategically located in the Smart City of New Raipur, Chhattisgarh. The University has consistently ranked among the top 101–150 universities in India under the NIRF Rankings 2025 for the fourth consecutive year and has also received a NAAC B+ accreditation, continuously shining on the horizons of high-quality education.

About Raipur

Raipur, the capital city of Chhattisgarh, is a blend of culture, heritage, and development. It is one of the fastest-developing cities of India and has become a centre of attraction in education, infrastructure, tourism, business, and Innovation. The city is famous for temples, parks, animal sanctuaries, the Shaheed Veer Narayan Singh International Cricket Stadium, food joints, shopping places, malls, & tribal heritage sites. It is home to some of the largest steel plants, IT industries, and manufacturing units.

About New Raipur

New Raipur is the first Greenfield Smart City in India, where 27% of the land is solely devoted to green and sustainable practices. It is also becoming a major hub of education and health in Central India. The Government is planning to make it a global destination for the IT and services industry to offer employment opportunities to youth. New Raipur is a well-planned smart city that supports a sustainable lifestyle and intelligent infrastructure. Due to growing opportunities and developments, it attracts students, entrepreneurs, and innovators ready to turn their ideas into innovations.

Objectives of New Raipur

- To become a hub of manufacturing, information technology, and biotechnology sectors
- To become the financial centre of the region
- To become a centre of trade and businesses
- To support the local economy through cultural services
- To become a place for affordable and high-quality medical services
- To become a hub of National and International educational institutions
- To develop sustainable and eco-friendly infrastructure

About the Faculty of Pharmacy

The Faculty of Pharmacy at Kalinga University is deeply committed to producing highly skilled pharmacists and scientists who uphold ethical standards and are equipped to address community health needs. The emphasis on international standards, scientific research, and community service reflects a holistic approach to education and professional development. The investment in state-of-the-art laboratories demonstrates a dedication to providing students with practical, hands-on learning experiences in pharmaceutical sciences.

About the Conference

The conference on “AI and Translational Innovations in Pharmaceutical Sciences and Healthcare for Viksit Bharat@2047” aims to provide a dynamic platform for researchers, academicians, healthcare professionals, industry experts, and students to discuss the transformative role of Artificial Intelligence and translational research in advancing healthcare in India. The conference will focus on emerging areas such as AI-driven drug discovery, precision medicine, digital healthcare, pharmacovigilance, bioinformatics, smart drug delivery, and clinical research. Aligned with the vision of Viksit Bharat@2047, the event seeks to encourage innovation, interdisciplinary collaboration, and sustainable healthcare solutions while addressing ethical and regulatory aspects of AI integration to build an accessible, affordable, and patient-centric healthcare system for the future.

Objectives

The primary objective of the conference on “AI and Translational Innovations in Pharmaceutical Sciences and Healthcare for Viksit Bharat@2047” is to create a multidisciplinary platform for researchers, academicians, healthcare professionals, pharmaceutical scientists, industry experts, policymakers, and students to exchange knowledge and discuss recent advancements in Artificial Intelligence and translational research in healthcare.

The Conference Aims to:

- To explore the application of AI and machine learning in drug discovery, drug design, pharmacovigilance, precision medicine, clinical decision support systems, and healthcare management.
- To promote translational research that bridges laboratory innovations with real-world clinical and healthcare applications for improving patient outcomes and public health.
- To promote research and innovation aimed at strengthening India's healthcare infrastructure, digital health ecosystem, and pharmaceutical self-reliance under the Viksit Bharat@2047 mission.
- To identify future directions and policy frameworks for integrating AI, healthcare technologies, and pharmaceutical sciences in achieving equitable, accessible, and quality healthcare for all citizens.

Call for Papers

The International Conference invites abstracts from delegates from all over the globe, including guest/invited speakers, faculty, research scholars, postgraduate and graduate students from different organisations. This conference will be a suitable forum for sharing views on the applications of AI and machine learning in drug discovery, drug design, pharmacovigilance, precision medicine, clinical decision support systems, and healthcare management. Abstracts up to 250-300 words should be prepared using Times New Roman (12pt) in a single line. The title should be in bold. The abstract should be free from plagiarism. Mention the names of the author(s), affiliation(s), and Email ID of the corresponding author. Underline the name of the presenting author and email to icfop@kalingauniversity.ac.in. All abstracts will be published as conference proceedings with an ISBN. A soft copy of the conference proceedings will be provided to all the participants.

Publication

All the papers will be included in the conference proceedings with an ISBN as an E-Book.
