BRIDGE COURSES 2025

A bridge course for newly admitted international students is conducted before the commencement of the first semester classes. The main objective of the course is to bridge the gap between subjects studied at Pre-university level and subjects they would be studying. We also understand that the students applying for the university come from different sociocultural backgrounds and from different countries, so we have included a few topics which help them understand the local culture and history of India. In order to make this bridge course interesting for the students we have included workshops related to art and culture & a hobby class too. We have bridge courses of 6 months, 4 months and 2 months (5 days in a week), This bridge course is designed separately for students enrolling for technical & non-technical courses.
